🔗 www.linkedin.com/in/zinedineferrouk/

As a Full Stack Developer, I have supported client onboarding and the integration of e-commerce platforms while ensuring support and incident resolution. I will bring a customer- and results-oriented approach, delivering reliable connectors, SLA-friendly supervision, and optimized payment journeys.

PROFESSIONAL EXPERIENCE

Full Stack Developer Tapbuy, Paris-Caen | Since 2023 (3+ years)

Depuis 2023 (3 ans+)

[Tapbuy Paris-Caen](#)

- **Client Onboarding & Architecture:** Full management of the technical integration for new brands. Development of robust connectors (SFCC, Shopify) and API flow management. Use of Docker to standardize development environments and ensure smooth deployments.
- **Maintenance & Observability:** High-level technical support and critical incident resolution. Proactive monitoring via Sentry for real-time identification of bugs on sensitive flows and continuous stability optimization.
- **QA & Reliability:** Securing payment flows (critical flows) via automated E2E testing (Robot Framework, WebdriverIO). Guarantee of non-regression and strict compliance with transactional SLAs.
- **Data Strategy:** Management of e-commerce tracking via GTM (Google Tag Manager). Implementation of advanced tagging plans (DataLayer) to ensure the accuracy of KPIs and conversion tracking.

Full Stack Developer Capgemini, Issy-les-Moulineaux | From 2021 to 2023 (2 years)

De 2021 à 2023 (2 ans)

[Capgemini Issy-les-Moulineaux](#)

- **Development & Architecture:** Analysis and design of advanced features in complex environments.
- **Major Migration:** Led the version upgrade from Symfony 2.8 to 5.4 for a critical application.
- **Quality & Security:** Code auditing, vulnerability patching, and reduction of technical debt via SonarQube.
- **DevOps & CI/CD:** Deployment automation integrating Checkmarx, SonarQube, and PHPUnit.
- **Operational Maintenance (TMA):** Diagnosis and resolution of production incidents.

SKILLS

Development

PHP 8, Symfony (API Platform), Node.js, Docker, React, TypeScript, Next.js, SCSS

Databases

MySQL, PostgreSQL, Redis

Architecture

REST API design, microservices, OOP, Design Patterns

E-commerce & Fintech Expertise

Salesforce Commerce Cloud (SFCC), Shopify.

Methodology

Agile (Scrum/Kanban), Unit and functional testing (Jest, PHPUnit).

Tools

Git (GitFlow), Docker, CI/CD (GitHub Actions, GitLab CI), Jira.

Payment Solutions

API integration and maintenance (Adyen, Payzen, Stripe, PayPal). Webhook management, payment security, bank reconciliation, conversion funnel (Checkout) optimization.

EDUCATION AND TRAINING

Project Manager in Applied Computer Systems | Need For School, Rouen | From 2021 to 2023

De 2021 à 2023
